# Capitalism in Crisis

The continuing crisis of capitalism is destroying all options for young people. With 430,000 on the dole, the idea of finding a half-way decent job is all but gone. The government are shutting the option of education with savage cutbacks and hikes in registration fees. And even the dole has been slashed for young people.

The governments message for young people is clear - they want to kick us out of the country through forced emigration. They don't care about workers, young people or the unemployed.

This is a crisis of capitalism, caused by the greed and speculation of the rich. It underlines the fundamentally undemocratic nature of capitalism, where big business and 'the markets' have the power to destroy the lives of millions.

# Fightback has begun

Greece has seen a series of general strikes and mass protests in the last months against the cutbacks there

Similarly we have seen huge student protests, strikes and occupations against cuts and privatisation of education in Germany and Austria.

More and more people are no longer simply victims of the crisis and the profit system, but opponents of it.

# Summer Festival

Socialist Youth organises this annual Summer festival as an event where young people can come to discuss these and the issues that affect them

Along with discussion you will also get to relax and enjoy yourself over the weekend with music, barbecues, film showing, football and lots more.

Its an event that you can't afford to miss!

## Friday Night Rally -

## Saturday Morning Commissions:

- 1 Israel/Palestine: How can oppression of Palestinians be fought?
- 2 LGBT - How can equality be won?
- 3 BP Oil Spill Exposes Multinationals - But can the environment be saved?
